

The background of the cover features a close-up, perspective view of an LED display panel. The panel is composed of a grid of small, square light-emitting diodes. The lights are illuminated in a variety of colors, including vibrant reds, oranges, yellows, and blues, creating a dynamic and colorful pattern. The perspective is from a low angle, looking down at the panel, which makes the grid lines converge towards the top of the frame. Overlaid on this background are several large, semi-transparent, geometric shapes in shades of purple, blue, and grey, which add a modern, technological feel to the design. The text is positioned on the left side of the cover, set against a white background that tapers into the main image area.

# LED Industry Market Research Report

---

Date: January, 2024  
Author: Brendan Jephcott

Prepared by:

**GOLDEN** DRAGON CAPITAL

## Table of Contents

Executive Summary .....	2
1.0 Introduction .....	10
1.1 LEDs.....	10
1.2 History of LEDs.....	11
1.3 LED Specifications and Performance .....	13
1.4 Industry Chain .....	14
2.0 Display Technologies .....	18
2.1 Pixel Pitch and LED Walls .....	18
2.2 Difference between LCD, LED and OLED .....	20
2.3 Small-Pitch LEDs.....	22
2.3.1 Small-pitch LEDs all-in-one machine application in conference rooms.....	23
2.3.2 XR virtual shooting is in the high growth stage .....	23
2.4 MiniLED .....	25
2.5 Micro LED.....	26
3.0 LED Working Principle .....	28
4.0 LED Manufacturing Process .....	31
5.0 LED Sapphire Substrate .....	35
5.1 Crystal Structure.....	35
5.2 Properties .....	36
5.3 Manufacturing Process.....	37
5.4 Methods for Growing Sapphire Crystals .....	41
5.4.1 Verneuil Method .....	42
5.4.2 Czochralski Method .....	42
5.4.3 Kyropoulos Method .....	43
5.4.4 Heat Exchanger Method .....	44
5.4.5 Edge-defined Film-fed Growth method .....	45
5.5 Application Types.....	45
5.6 Market.....	47
5.7 Technical Parameters Example .....	48
6.0 LED Chip Manufacturers.....	50
7.0 LED Packaging .....	56
7.1 LED Packaging Methods .....	56
7.2 LED Packaging Market.....	64
8.0 LED Market.....	65
References.....	72
Disclaimer .....	76

## Table of Figures

Figure 1: Conventional LEDs with RBG colours.....	10
Figure 2: Schematic of white LED .....	12
Figure 3: LED industry chain .....	14
Figure 4: Major companies in the LED industry chain .....	14
Figure 5: LED value chain .....	15
Figure 6: China LED application market structure (2022) .....	15
Figure 7: LED street lighting.....	16
Figure 8: Giant LED displays light up New York’s Times Square .....	16
Figure 9: LED car headlight .....	17
Figure 10: High resolution Surface Mount Device LED with 4 mm pixel pitch.....	19
Figure 11: Optimal viewing distance vs pixel pitch for LED display screens .....	19
Figure 12: LED video wall viewing distances .....	20
Figure 13: TFT-LCD technology used for LCD panels .....	20
Figure 14: LED technology works by transforming electrical energy into light energy.....	21
Figure 15: OLED technology .....	21
Figure 16: Small-pitch LED commercial applications .....	22
Figure 17: LED conference all-in-one machine .....	23
Figure 18: XR virtual shooting (illustrative).....	24
Figure 19: Schematic diagram of XR virtual shooting system .....	24
Figure 20: MicroLED technology no longer requires colour filters and crystal liquid layers.....	26
Figure 21: MicroLED structure comparison to LCD and OLED technologies .....	27
Figure 22: Apple Watch Ultra is rumoured to use MicroLED technology .....	28
Figure 23: Mass transfer involves transferring LED dies to a circuit matrix completely.....	28
Figure 24: Working principal of a LED.....	29
Figure 25: The mechanism of growing GaN compound semiconductor by the MOCVD method .....	32
Figure 26: Schematic representation of the epitaxial layer formation of GaAs by the MOCVD method .....	33
Figure 27: Component materials which make up a LED .....	34
Figure 28: Schematic of sapphire crystal showing arrangement of the key planes .....	36
Figure 29: Transmission Spectrum of 2 mm-thick Sapphire Window .....	37
Figure 30: Schematic of the process used to produce sapphire wafers for LEDS .....	37
Figure 31: Sapphire boule to sapphire crystal ingot to sapphire wafer.....	38
Figure 32: Sapphire boules of various sizes .....	38
Figure 33: A 90 kg sapphire boule to defect detection through scanning and optimisation of the ingot extraction .....	39
Figure 34: Schematic of the core drilling of c-axis rods from an a-axis grown sapphire crystal .....	39
Figure 35: Sapphire rod to sapphire wafer .....	40
Figure 36: SEM micrographs of Patterned Sapphire Substrate wafers .....	41
Figure 37: Verneuil method for growing a sapphire crystal .....	42
Figure 38: Czochralski method for growing a sapphire boule .....	43
Figure 39: Kyropoulos method for growing a sapphire boule .....	43
Figure 40: Heat Exchange method for growing a sapphire boule.....	44
Figure 41: Edge-defined film-fed growth method for growing a sapphire boule .....	45
Figure 42: Schematic diagram of semipolar (green), polar (blue) and nonpolar (red) surfaces. ....	46
Figure 43: Downstream application of Sapphire materials in China .....	47
Figure 44: Global demand for PSS flat sheets and sapphire substrate materials 2021 to 2025E .....	47
Figure 45: Fujian Jing’an Optoelectronics Co., Ltd sapphire substrate materials .....	49
Figure 46: Market share in LED, light sensors and auto lamps/bulbs .....	53
Figure 47: Market share automotive emitters and automotive light sensors .....	53
Figure 48: China LED chip production capacity structure (2021) .....	55
Figure 49: LED Dual In-Line Packaging .....	57
Figure 50: LED Surface Mount Device Packaging .....	58
Figure 51: LED Surface Mount Device Packaging process flowsheet.....	58
Figure 52: LED Chip On Board Packaging.....	60
Figure 53: LED SMD vs COB Packaging .....	60
Figure 54: LED Chip On Board Packaging process flowsheet .....	60

# GOLDEN DRAGON CAPITAL

Figure 55: Comparison of LED DIP, SMD and COB array packing density .....	62
Figure 56: LED Integrated Matrix Device Packaging.....	62
Figure 57: IMD vs SMD Packaging .....	62
Figure 58: IMD vs COB Packaging .....	63
Figure 59: China LED packaging companies market share .....	65
Figure 60: TrendForce 2021-2027 LED market value .....	66
Figure 61: LED market revenue share worldwide in 2021 by application.....	66
Figure 62: Global small-pitch LED market size forecast (2021 to 2026E).....	67
Figure 63: Global XR virtual shooting market size forecast (2020 to 2025E).....	67
Figure 64: Mini LED backlight chip (left) and board (right) market size forecast (2021 to 2025E).....	68
Figure 65: Mini LED LCD backlight unit forecast (2021 to 2027E).....	68
Figure 66: Micro LED forecast (2022 to 2027E).....	69
Figure 67: LED package and die exports by country, 2017–2019.....	69
Figure 68: Trade flow of LED packages and die for lighting, 2019 .....	70

## List of Tables

Table 1: History of LEDs.....	12
Table 2: Comparison of small-pitch Led, MiniLED, and MicroLED technologies .....	18
Table 3: Comparison of small-pitch LED, LCD, and DLP display screen technologies .....	22
Table 4: Layout of Chinese small-pitch LED manufacturers in the field of XR virtual shooting.....	25
Table 5: Comparison of display indicators for different LED technologies .....	27
Table 6: Physical Properties of Sapphire.....	36
Table 7: Thermal Properties of Sapphire .....	36
Table 8: Electrical Properties of Sapphire .....	37
Table 9: Major Global Sapphire Substrate Companies (with websites).....	48
Table 10: Fujian Jing'an Optoelectronics Co., Ltd Sapphire Substrate Product Specifications .....	49
Table 11 Major global LED manufacturers.....	50
Table 12 Major Chinese LED manufacturers.....	55
Table 13 Comparison of SMD\IMD\COB package technologies .....	64
Table 14 Global Top Ten LED Package Revenue Ranking in 2021 .....	65
