

FLUORSPAR

Market Research Report

Author: Brendan Jephcott

Date: February 2024

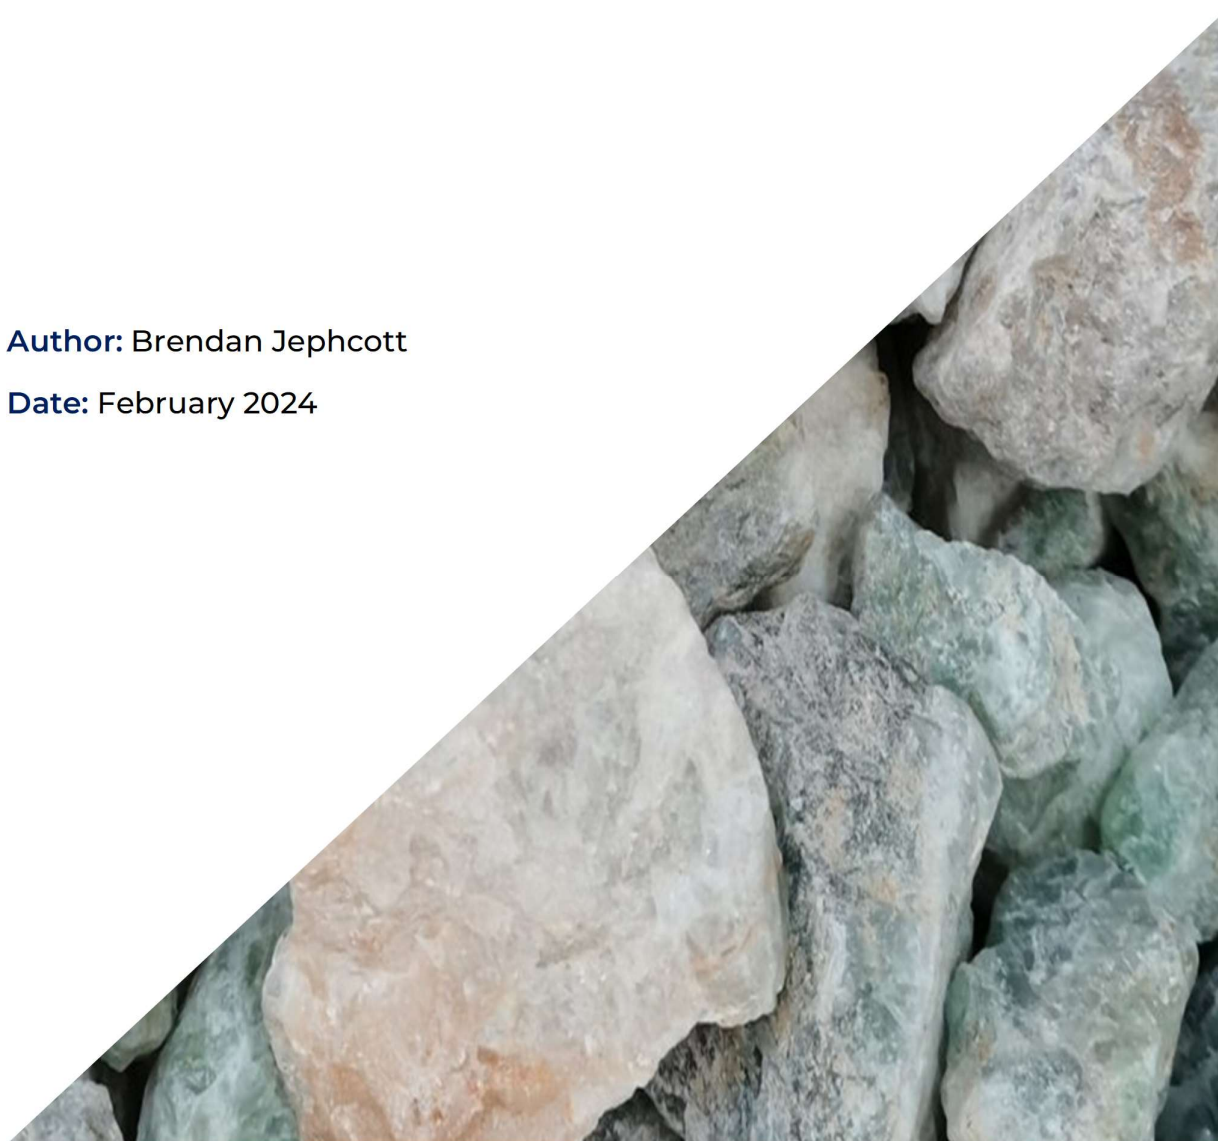

Table of Contents

Executive Summary	2
1.0 Introduction.....	21
1.1 Definition and Properties	21
1.2 History.....	21
2.0 Geology and Mineral Resources	22
2.1 Modes of Occurrence.....	22
2.2 Global Reserves.....	22
2.2 Fluorspar Deposit Grades and Tonnages by Deposit Type	24
3.0 Fluorspar Product Types and Product Specifications.....	27
3.1 Product Types	27
3.2 Product Specifications.....	28
3.2.1 China Standard	28
4.0 Mining and Beneficiation	30
4.1 Mining.....	30
4.2 Beneficiation.....	31
5.0 Transportation.....	33
6.0 Global Market Supply Overview.....	35
7.0 Uses of Fluorspar	40
7.1 Chemical Industry	41
7.2 Metallurgical Industry	43
7.3 Ceramic Industry.....	44
8.0 Hydrofluoric Acid.....	44
8.1 Production	44
8.2 Product Specifications.....	45
8.2.1 China Standards.....	45
8.3 Global Market.....	46
8.3.1 China Market.....	49
9.0 Fluorocarbons	53
9.1 Naming and Numbering	53
9.2 Market.....	56
10.0 Aluminium Fluoride.....	59
10.1 Production	59
10.2 Product Specifications.....	60
10.3 Global Market.....	61
11.0 Electronics.....	64
11.1 Semiconductors or Integrated Circuits.....	64
11.2 Fluorine Compounds.....	66
11.3 Global Market.....	66

12.0	Lithium-ion Batteries	67
12.1	Working principle of a Lithium-ion Battery	67
12.2	Lithium hexafluorophosphate.....	68
12.3	Polyvinylidene fluoride	71
12.4	Anode Material	72
13.0	Substitution by Fluorosilicic Acid.....	73
14.0	Metallurgical Grade (Metspar) Fluorspar.....	76
14.1	Steel Industry	76
14.2	Other Industries.....	79
15.0	Ceramic Grade Fluorspar	80
16.0	Market Trend to 2030.....	80
17.0	Fluorspar Pricing	81
17.1	Methodology.....	81
17.2	Pricing Trends since 2000.....	81
	References.....	85
	Appendix 1 — Case Study.....	90
1.0	China Kings Resources Group Co., Ltd.....	91
1.1	Company Overview	91
1.2	Business Model	92
1.3	Business Operations	93
1.3.1	Resources, Mining and Beneficiation	93
1.3.2	Subsidiaries.....	93
1.3.3	Cooperation with Baosteel	96
1.4	Operating Performance and Financial Situation	98
	Disclaimer	101

Figures

Figure 1: Metspar global imports in 2019 (ktpa)	5
Figure 2: Fluorspar — Discovery and naming	21
Figure 3: World production of fluorspar 1913 to 2017 (kt).....	22
Figure 4: Distribution of global fluorspar mineral reserves (2021)	23
Figure 5: Plot of fluorite grade versus tonnage for fluorspar deposits related to strongly differentiated granites, carbonatite-related fluorspar deposits, and for vein related fluorspar deposits (USGS, 2017).....	24
Figure 6: World map showing known fluorspar mineral deposits (USGS, 2017).....	26
Figure 7: Acid grade fluorspar.....	27
Figure 8: Metallurgical grade fluorspar	28
Figure 9: Vergenoeng Fluorspar Open Pit Mine, Mpumalanga Province, South Africa.....	30
Figure 10: Mexichem Fluorspar Underground Mine, San Luis Potosi, Mexico	31
Figure 11: Hand sorting — belt conveyor with adjustable speed with labour sorting lumps from conveyor .	31
Figure 12: Flowsheet for acid grade fluorspar recovery.....	32
Figure 13: Bulk shipments from Kerry Siam Seaport in Laem Chabang, Thailand.....	33
Figure 14: Fluorspar loaded lower hold on multi-purpose vessel.....	33
Figure 15: Time charter freight rates (excluding capsizes)	34
Figure 16: Incoterms 2020.....	34
Figure 17: Global fluorspar production	35
Figure 18: Global fluorspar production in 2019	36
Figure 19: Global fluorspar consumption in 2019.....	36
Figure 20: Global acidspar consumption in 2019	37
Figure 21: China consumption of fluorspar in 2019	37
Figure 22: Acidspar global exports in 2019 (ktpa)	38
Figure 23: Acidspar global imports in 2019 (ktpa).....	38
Figure 24: Metspar global exports in 2019 (ktpa)	39
Figure 25: Metspar global imports in 2019 (ktpa).....	39
Figure 26: China fluorspar trade 2010 to 2020 (tonnes)	39
Figure 27: Mongolian metspar exports 2010-2020.....	40
Figure 28: USA fluorspar import reliance trends 2009-2018.....	40
Figure 29: Fluorspar industrial chain.....	41
Figure 30: Simplified flowsheet for the production of hydrofluoric acid from acid grade fluorspar	44
Figure 31: BUSSChemTech Hydrofluoric Acid plant.....	45
Figure 32 Major producers of hydrofluoric acid.....	47
Figure 33 HF plants in operation around the world.....	47
Figure 34: Hydrofluoric acid global capacity in 2019.....	48
Figure 35: Hydrofluoric acid global imports 2015 to 2020 (kt)	48
Figure 36: Hydrofluoric acid import prices 2015 to 2020 (kt).....	48
Figure 37: China hydrofluoric acid production capacity distribution	49
Figure 38: China hydrogen fluoride capacity utilisation rate.....	50
Figure 39 China industrial grade hydrofluoric acid downstream demand	51
Figure 40 China electronic grade hydrofluoric acid downstream demand	51
Figure 41 China electronic grade hydrofluoric acid production capacity	52
Figure 42 China hydrofluoric acid spot price CNY/t (1 CNY equals 0.16 USD).....	53
Figure 43: Fluorocarbon Suffix Examples.....	55
Figure 44: Fluorocarbon HFO Suffix example	55
Figure 45: Fluorocarbon HFO (C=C) Suffix examples.....	56
Figure 46: Consumption of fluorocarbons.....	56
Figure 47: Consumption of fluorocarbons by type.....	57
Figure 48: Common fluorocarbons and applications	58
Figure 49: Global consumption of fluorocarbons by end use	58
Figure 50: Company manufacturing of fluorocarbons.....	59
Figure 51: Fluorsid Aluminium Fluoride Plant.....	60
Figure 52: Aluminium fluoride	60
