

LFP CATHODE MATERIAL

Market Research Report

Author: Brendan Jephcott

Date: July 2024

Table of Contents

Executive Summary	2
1.0 Introduction.....	19
1.1 LFP Cathode Material Industry Development Trends.....	19
1.2 Lithium-Ion Battery Technology.....	21
1.3 Mainstream Cathode Materials	27
1.4 Cathode Positioning within the Industry Chain	29
2.0 Lithium Iron Phosphate Cathode Material.....	30
2.1 Structure of Phospho-Olivines.....	30
2.2 LFP Working Principal.....	30
2.3 LFP Product Performance.....	31
2.3.1 Advantages.....	31
2.3.2 Disadvantages	33
3.0 Lithium Iron Phosphate Cathode Material Processing Methods.....	34
3.1 Principal LFP Production Processes.....	34
3.1.1 Solid Phase Synthesis.....	36
3.1.2 Liquid Phase Synthesis.....	41
3.2 LFP Product Modification Methods	44
3.2.1 Nanoization.....	45
3.2.2 Carbon Coating	45
3.2.3 Doping.....	46
3.3 LFP Solid-phase Synthesis Method vs Liquid-phase Synthesis Method	47
3.4 LFP Upstream Raw Materials.....	47
3.4.1 Lithium Carbonate	48
3.4.2 Ferrous Oxalate	52
3.4.3 Ferric Phosphate	53
3.4.4 Iron Powder	57
3.4.5 Iron Oxide	57
3.4.6 Ferric Nitrate.....	58
3.4.6 Phosphoric Acid.....	59
3.4.7 Monoammonium Phosphate.....	63
3.5 LFP Final Product Specifications.....	64
4.0 Chinese Lithium Iron Phosphate Standards	73
4.1 Lithium Iron Phosphate	73
4.1.1 GB/T 30835-2014 Carbon composite lithium iron phosphate cathode material for lithium-ion batteries.....	73

4.1.2	YS/T 1027-2015 Lithium iron phosphate.....	74
4.1.3	GB/T 33822-2017 Nano composite lithium iron phosphate	76
4.2	Lithium Iron Phosphate Upstream Raw Materials.....	78
4.2.1	GB/T 11075-2013 Lithium carbonate.....	78
4.2.2	YS/T 582-2013 Battery grade lithium carbonate.....	78
4.2.3	YS/T 546-2021 High purity lithium carbonate.....	79
4.2.4	YS/T 1552-2022 Crude lithium carbonate.....	80
4.2.5	GB/T 23853-2022 Lithium carbonate made of brine.....	81
4.2.6	HG/T 4701-2021 Iron phosphate for battery minerals.....	81
4.2.7	GB/T 2091-2008 Phosphoric acid for industry use	82
4.2.8	HG/T 4069-2022 Wet purified phosphoric acid for industry use	83
4.2.9	HG/T 5742-2020 Ammonium dihydrogen phosphate for battery materials.....	84
5.0	Commercialisation	85
5.1	LFP Intellectual Property Rights.....	85
5.2	New Energy Vehicles.....	85
5.3	Energy Storage Systems.....	95
6.0	Competitive Landscape.....	105
6.1	China LFP Cathode Material Production	105
6.2	Overseas LFP Cathode Material Production and Proposed Projects.....	110
6.2.1	Asia (excl China).....	110
6.2.2	North America.....	114
6.2.3	Europe	118
6.2.4	Africa.....	121
7.0	Market Pricing.....	121
7.1	LFP Cathode Material.....	121
8.0	Market Size Forecast	124
	References.....	127
	Appendix 1: Hunan Yuneng New Energy Battery Material Co., Ltd.....	133
1.0	Hunan Yuneng New Energy Battery Material Co., Ltd.....	134
1.1	Corporate Overview.....	134
1.2	LFP Cathode Material Business.....	134
1.3	Financials (1USD: 7CNY).....	144
1.4	Competitor Analysis (1USD: 7CNY).....	149
	Disclaimer	152
