

# SEPARATOR MATERIAL

Industry Research Report

---

**Author:** Brendan Jephcott

**Date:** November 2024

## Table of Contents

Executive Summary .....	2
1.0 Introduction.....	10
1.1 Lithium-Ion Battery Technology.....	10
1.2 Design Principles for Separators.....	14
1.3 Separator Industry Chain .....	16
2.0 Separator Properties .....	17
2.1 Thickness .....	19
2.2 Pore Size.....	19
2.3 Porosity.....	19
2.4 Permeability.....	20
2.5 Wettability.....	20
2.6 Ionic Conductivity.....	20
2.7 Tensile Strength and Puncture Strength .....	21
2.8 Dimensional Stability.....	21
2.9 Chemical Stability.....	21
2.10 Electrochemical Stability.....	21
2.11 Thermal Stability .....	22
2.12 Shutdown Temperature.....	22
3.0 Principal Production Process.....	23
3.1 Dry Processing Method.....	23
3.2 Wet Processing Method .....	25
3.3 Comparison between Dry and Wet Processing Methods.....	27
3.3.1 Processing Method Comparison.....	28
3.3.2 Product Performance Comparison .....	29
3.4 Separator Coating.....	31
3.4.1 Separator Coating Properties .....	31
3.4.2 Separator Coating Materials .....	31
3.4.3 Separator Coating Processing Method.....	35
3.5 Slitting .....	37
3.6 Cash Cost Analysis (1USD ~ 7 CNY).....	37
4.0 Commercialisation .....	43
4.1 Competitive Landscape .....	43
4.2 Separator Material Sales in China.....	46
4.3 Global Planned Production Capacity Expansions .....	48
4.4 Barriers to Entry.....	51
4.5 Prices (1USD ~ 7CNY).....	55
4.6 Market Size Potential.....	58
5.0 SEMCORP.....	59

# GOLDEN DRAGON CAPITAL

5.1	Corporate Overview.....	59
5.2	Separator Business.....	60
5.2.1	Production Bases in China.....	61
5.2.2	Overseas Investments.....	68
5.2.3	Separator Products.....	72
5.3	Research & Development.....	77
5.4	Customers.....	77
5.5	Financials (1 USD ~ 7 CNY).....	80
6.0	Asahi Kasei Corporation.....	83
6.1	Corporate Overview.....	83
6.2	Separator Business.....	84
6.2.1	Production Bases.....	84
6.2.2	Overseas Investments.....	84
6.2.3	Separator Products.....	85
7.0	SK IE Technology.....	90
7.1	Corporate Overview.....	90
7.2	Separator Business.....	91
7.2.1	Production Bases.....	91
7.2.3	Separator Products.....	92
	References.....	96
	Disclaimer.....	99

## Figures

Figure 1: Parts of a lithium-ion battery.....	10
Figure 2: Charging and discharging of a lithium-ion battery.....	11
Figure 3: Working principle of a lithium-ion battery showing a separator in the middle.....	13
Figure 4: Schematics of inner structures of commercial lithium-ion batteries.....	13
Figure 5: Design principles for rechargeable battery separators.....	15
Figure 6: Lithium-ion battery separator industry chain.....	16
Figure 7: Separator insulating film material used in lithium-ion batteries.....	16
Figure 8: Lithium-ion battery cash cost distribution.....	17
Figure 9: Lithium-ion battery mass distribution.....	17
Figure 10: Important performance properties of separators.....	18
Figure 11: Separator dry processing method.....	25
Figure 12: Pore structures of a dry separator (uniaxial stretching, left) (biaxial stretching, right).....	25
Figure 13: Separator wet processing method.....	27
Figure 14: Pore structure of a wet separator.....	27
Figure 15: (a) Surface and (b) cross-sectional scanning electron micrographs of a Celgard 2325 PP-PE-PP separator.....	30
Figure 16: Celgard membrane coated with 2 to 5µm thickness ceramic layers.....	32
Figure 17: Coated separator principal processing flowsheet.....	35
Figure 18: Schematic diagram of gravure roller coating process.....	36
Figure 19: Schematic diagram of narrow-slit extrusion coating process.....	36
Figure 20: Separator slitting.....	37
Figure 21: Separator cash cost distribution (2023).....	38
Figure 22: Separator raw material cost distribution (2023).....	38
Figure 23: Price of polypropylene powder from 2020 to Oct 2022 (CNY per tonne).....	39
Figure 24: Price of polyethylene powder from 2020 to Oct 2022 (CNY per tonne).....	39
Figure 25: Distribution cash cost of a coated separator.....	40
Figure 26: Changes in separator production costs for Semcorp (CNY/sqm).....	41
Figure 27: Global separator competitive landscape (2023).....	44
Figure 28: China separator competitive landscape (2022).....	45
Figure 29: China wet separator competitive landscape (2022).....	45
Figure 30: China dry separator competitive landscape (2022).....	46

## Tables

Table 1: Requirements for lithium-ion battery separators.....	18
Table 2: Summary of lithium-ion battery separator performance requirements.....	23
Table 3: Dry uniaxial stretching process flowsheet .....	24
Table 4: Wet biaxial asynchronous stretching process flowsheet.....	26
Table 5: Comparison between dry and wet processing methods .....	28
Table 6: Performance comparison of dry and wet separators.....	30
Table 7: Key performance indicators for separator coating materials .....	31
Table 8: Coating patents of related separator companies .....	32
Table 9: Mainstream separator coating material characteristics.....	33
Table 10: Comparison of different separator coating materials .....	33
Table 11: Comparison of Shanghai Putailai New Energy Technology Co., Ltd coated separator products .....	34
Table 12: Coating modification processing method comparison .....	37
Table 13: Production cash cost, expenses and profit in 2021 (CNY per sqm).....	40
Table 14: Changes in raw material purchase prices .....	41
Table 15: Wet separator costs under different production line widths and machine speeds (CNY/sqm) .....	42
Table 16: Costs for orders under different production line capacity utilisation rates (CNY/sqm) .....	42
Table 17: Global separator planned production capacity 2021E to 2024E (billion sqm).....	48
Table 18: China separator companies — Planned production capacity expansions (as of February 2024).....	49
Table 19: Global separator equipment supplies and relationships with Chinese manufacturers .....	52
Table 20: Chinese separator equipment companies .....	52
Table 21: Shenzhen Senior Technology Material Production Equipment Investment.....	53
Table 22: Global separator companies and their related customers (2022) .....	55
Table 23: Semcorp — Planned production capacity expansions (2019 to 2025E) .....	70
Table 24: Semcorp — Separator product portfolio.....	72
Table 25: Comparison of yield rates of separator companies .....	73
Table 26: Semcorp Large-scale orders since 2021.....	78
Table 27: Investment and production status of SKIET battery separator plants.....	91
